CAMPUS

LAKE ERIE COLLEGE

The MBA concentration in Information Technology Management is designed to meet the emerging market demand for IT management professionals. Information is a key asset to any organization. The concentration seeks to develop IT management professionals who will lead an organization's strategies to most effectively define, store, manage, protect, share and distribute information to relevant stakeholders as well as exploiting the power of information technology to create a competitive advantage. Courses include coverage of data and database management; information systems design and development; and data communications, computer networks, and security.

ADMISSION REQUIREMENTS:
