# Electronic Engineering Technology

Electronics engineering technicians identify and resolve equipment malfunctions and then work with manufacturers to get replacement parts. They also calibrate and perform preventative maintenance on equipment and systems. Technicians do this by reading blueprints, schematic drawings, and engineering instructions for assembling electronic units. Depending on the project, they may also write reports and record data on testing techniques, laboratory equipment and specifications.

Electronic engineering technology program graduates typically help engineers design and develop computers, communications equipment, medical monitoring devices, navigational equipment, and other electrical and electronic equipment.

They often work in product evaluation and testing, using measuring and diagnostic devices to adjust, test and repair equipment or they may be involved in the manufacture and deployment of automation/manufacturing equipment.

Duties may include:

- Designing basic circuitry and draft sketches to clarify details of design documentation, under engineers' direction.
- Building prototypes from rough sketches or plans.
- Assembling, testing and maintaining circuitry or electronic components according to engineering instructions, technical manuals and knowledge of electronics.
- Adjusting and replacing defective circuitry and electronic components.
- Inspecting designs for quality control, reporting findings and making recommendations.
- Drawing diagrams and writing specifications to clarify design details of experimental electronics units.

## Career Opportunities

\$64,290 in May 2018. The median wage is the wage at which half the workers in an occupation earned more than that amount and half earned less. The lowest 10 percent earned less than \$37,420, and the highest 10 percent earned more than \$93,810 (Source: Bureau of Labor Statistics, U.S. Department of Labor).

## Lakeland's Program

Lakeland's Electronic Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (ETAC/ABET). This accreditation ensures transfer students pursuing a four-year technology degree will receive maximum transfer credits to other colleges and universities due to ETAC/ABET's strict program requirements.

## The Lakeland Advantage

- Lakeland is proud to offer a ETAC/ABET accredited Associate of Applied Science degree in Electronic Engineering Technology.
- Hands-on education is combined with state-of-the-art software and hardware applications.
- Multiple certificate programs are offered to help specialize and enhance your education.
- Electronic and electrical engineering technology positions comprise 43 percent of all engineering technician jobs nationwide.

## Lakeland Community College Admission Requirements

For admission into Lakeland, students must be a high school graduate or have obtained a high school diploma equivalency. Please consult Lakeland Community College's Enrollment Guide (available on Lakeland's website at [lakelandcc.edu/enrollment](http://lakelandcc.edu/enrollment)) for specific admissions requirements and procedures.

### Associate of Applied Science Degree

**NOTE:** Students transferring to a four-year college are encouraged to take ENGL 1120 English Composition II in addition to the following requirements.

Course	Title	Credit Hours
<b>First Semester</b>		
ELEC 1120	Direct Current Circuit Analysis 	2
ENGL 1110 or ENGL 1111	English Composition I (A) <sup>1</sup> or English Composition I (B)	3
ENGR 1000	Introduction to Engineering Technology	2
FYEX 1000	First Year Experience	1
MATH 1180	Technical Mathematics I <sup>2</sup>	4
Select course(s) from the Arts and Humanities Electives list		3
Credit Hours		15
<b>Second Semester</b>		
CPET 1120	C Programming for Engineering Technology 	3
ELEC 1220	Alternating Current Circuit Analysis 	2
ELEC 1260	Direct Current and Alternating Current Laboratory 	1
ELEC 1330	Digital Systems Fundamentals	2
MATH 1280	Technical Mathematics II <sup>2</sup>	4
PHYS 1100	Applied Physics Mechanics	3

### Quality Education

Professors at Lakeland are experts in their fields with real-world experience. Lakeland prepares you for a high-demand career or for transfer to a four-year college or university. Access to bachelor's and graduate degrees is available on campus from partner institutions through Lakeland's Holden University Center ([lakelandcc.edu/uc](http://lakelandcc.edu/uc)).

### Affordable Tuition

Lakeland's tuition is about one-third the cost of most four-year schools. More than 50 percent of Lakeland students receive some form of financial assistance ([lakelandcc.edu/tuition](http://lakelandcc.edu/tuition)).

### Convenience

Lakeland offers convenient day, evening, weekend and online courses ([lakelandcc.edu/schedule](http://lakelandcc.edu/schedule)).

### Focus on Students

Lakeland offers a variety of student services to help you succeed, such as counseling, tutoring, computer labs, career services, free parking and affordable child care.
