Important Information	Last year, millions of Americans didn't vote because they missed a registration deadline or didn't know how to register. • Many Americans are not aware that they must register to vote before they can cast a ballot, in some cases 30 days in advance of the election. • If you turned 18 recently, changed your name, moved, or haven't voted in recent elections, then you need to update your voter registration. • One out of nine of Americans have moved in the last year, rendering their former registration outdated. Updating your voter registration is the surest way to ensure a trouble-free experience at the polls.
