

## HONORS PROGRAM NEWS

### Celebration of Research

If you have written a research paper for a class and would enjoy exploring the topic in more depth, consider presenting your work at the Celebration of Research. This annual spring event is designed to support and reward students who are interested in showcasing their research projects in a multidisciplinary setting. This is a great first step in gaining the valuable skills needed to succeed in graduate or professional school, or to distinguish yourself where applying to competitive colleges.

**REMINDER! Student abstracts are due February 24 by 5 p.m.**
