1. Provides safe patient-centered, evidence-based nursing care guided by the Caritas philosophy. ASSESSED IN 2016-17 (First cohort in new curriculum graduated in spring 2016)											
a. Delivers patient-centered, evidence based nursing care using the nursing process.	Overall	96% (27/28)	92.9% (13/14)								
b. Promotes factors that create a culture of safety.	Overall	96% (27/28)	86.7% (13/15)								
c. Provides patient teaching that reflects development, social, ethnic, and cultural considerations.	Overall	100% (28/28)	80% (12/15)								
d. Incorporates health promotion and risk reduction in the care of patients.	Overall	100% (28/28)	80% (12/15)								
2. Engages in critical thinking and clinical reasoning to provide quality patient care. ASSESSED IN 2016-17 (First cohort in new curriculum graduated in spring 2016)											
a. Uses critical thinking to make clinical reasoning to provide quality patient care.	Overall	85.7% (24/28)	86.7% (13/15)								
b. Uses critical thinking to prioritize patient care when implementing the nursing process.	Overall	89.3% (25/28)	86.7% (13/15)								
c. Examines the impact of economic, political, social, and demographic forces on the delivery of health care.	Overall	89.3% (25/28)	73.3% (11/15)								
3. Implements quality improvement measures in micro and macro systems. ASSESSED IN 2017-18											
a. Applies national patient-safety initiatives across health care systems.	Overall			90.9% (20/22)	77.8% (14/18)	100% (16/16)	81.8% (9/11)				
b. Explains a root cause analysis of a sentinel event.	Overall			90.9% (20/22)	50% (9/18)	87.5% (14/16)	75% (9/12)				
c. Identifies deviations from best practice making recommendations for improvement.	Overall			90.9% (20/22)	83.3% (15/18)	100% (16/16)	66.7% (8/12)				
d. Interprets information about outcomes of care for populations served in a variety of healthcare systems	Overall			90.9% (20/22)	77.8% (14/18)	81.3% (13/16)	83.3% (10/12)				
e. Applies quality improvement processes to nursing-sensitive indicators in the microsystem of care.	Overall			86.4% (19/22)	83.3% (15/18)	81.3% (13/16)	83.3% (10/12)				
4. Communicates effectively with patients, families, and members of the interprofessional team. ASSESSED IN 2017-18											
a. Uses therapeutic communication to promote well-being.	Overall			90.9% (20/22)	94.4% (17/18)	100% (16/16)	100% (12/12)				
b. Collaborates with members of the healthcare team to evaluate progress toward achievement of outcomes.	Overall			81.8% (18/22)	100% (18/18)	87.5% (14/16)	100% (12/12)				
c. Demonstrates caring behaviors in interactions with individuals and conflict resolution.	Overall			90.9% (20/22)	100% (18/18)	100% (16/16)	100% (12/12)				
d. Applies basic concepts of teamwork, consensus building and conflict resolution.	Overall			90.9% (20/22)	88.9% (17/18)	100% (16/16)	100% (12/12)				
5. Uses information and technology effectively to support decision-making and reduce risk potential. ASSESSED IN 2018-19											
a. Applies patient care technology and information management tools to support safe care.	Overall							100% (23/23)	94.4% (17/18)	93.9% (31/33)	91.7% (33/36)
