HOW

Radiologic Technology

Lakeland
COMMUNITY COLLEGE
RADIOLOGIC TECHNOLOGY

Become a radiologic technologist!

This program prepares students to enter the radiology profession at an entry-level position. They work under the supervision of qualified radiologists or physicians.

Radiologic technologists:

- » Use a variety of imaging technologies, such as X-rays, to create images of the internal structures of the body.
- » Prepare patients for procedures and position them so that the images can be obtained according to physician's orders.
- » Are responsible for ensuring that high-quality images are obtained for physicians to diagnose and treat medical conditions.
- » Adjust and maintain imaging equipment.
- » Work in a variety of settings, such as hospitals, outpatient clinics and imaging centers.

How long does it take to complete this program and be job-ready?

- » 66 credits (approximately 2 years)
- » Program starts fall semester each year.

Second-year program students are also eligible to earn related radiologic certificates in:

- » Computed Tomography
- » Magnetic Resonance Imaging

Credential

Program graduates are eligible to sit for the national certification exam through the American Registry of Radiologic Technologists (ARRT) to become a Registered Technologist (RT). Upon successful completion of the ARRT certification exam, graduates are eligible to apply for their state licensure to practice in Ohio.

How to Start
