# Accounting

Accounting is vital to successful business operations. Accountants are needed in all organizations to analyze financial activity and to provide guidance to enhance operational efficiency. As organizations focus on cutting costs, increasing profits, reducing taxes, and improving cash flow, there is continuing demand for accounting professionals.

## Career Opportunities

Accounting is one of the top three career paths in today's job market. Job opportunities are excellent in Northeast Ohio as well as other areas of the country. Graduates can look forward to a rewarding and exciting career in large and small businesses, public accounting, nonprofit organizations, and government agencies. Many Lakeland graduates have become CPAs, and pursued other financial certifications and degrees beyond the Lakeland experience. Graduates can find full-time, part-time and even flextime jobs. Adult students have found accounting to be an excellent reentry profession.

## The Lakeland Advantage

- Lakeland's accounting faculty are CPAs with real world professional accounting experience.
- Smaller class size allows more personal attention to help you succeed.
- The financial accounting certificate prepares college graduates with a bachelor's degree to advance or start an accounting career or sit for the CPA exam.

## Lakeland's Program

Lakeland's accounting program offers a comprehensive education in accounting and business. Individuals have the choice of obtaining an associate degree or a certificate to prepare for an accounting career. Lakeland accounting students come from a wide variety of backgrounds, so the accounting program is geared to meet the special needs of both traditional and adult reentry students. The program also offers a financial accounting certificate for college graduates with a bachelor's degree who wish to acquire education in accounting to advance or start an accounting career or sit for the CPA exam.

## Lakeland Community College Admission Requirements

For admission into Lakeland, students must be a high school graduate or have obtained a high school diploma equivalency. Please consult Lakeland Community College's Enrollment Guide (available on Lakeland's website at [lakelandcc.edu/enrollment](http://lakelandcc.edu/enrollment)) for specific admissions requirements and procedures.

## Accounting (9210)

### Associate of Applied Business Degree

Accounting is vital to successful business operations. Accounting graduates can look forward to an exciting and rewarding career in a variety of business settings.

Lakeland's Accounting program recognizes the growing importance of the use of technology. Through the use of accounting-related software, this program provides students with the computer knowledge and skills needed for success in the accounting field.

## Financial Accounting Certificate (2102)

Although anyone can pursue the Financial Accounting Certificate, it is primarily oriented towards college graduates who wish to acquire education in accounting to advance in their present profession, enter a new profession, or sit for the CPA exam. Students do not need any prior education in either accounting or business to enter this certificate program.

Because of the sequential nature of the material covered in the required courses, all courses except ACCT 1100 Introduction to Financial Accounting include prerequisites. Students are advised to carefully check individual course prerequisites before enrolling in these courses. Because of these prerequisites, this certificate cannot be completed in one year.

**NOTE:** ACCT 2120 Auditing Theory and Practice includes an additional prerequisite of MATH 2130 Business Statistics I (which can be taken concurrently). Students with prior business statistics knowledge may have this prerequisite waived.

### Recommended Business Courses

The Financial Accounting certificate covers only the accounting requirements to sit for the CPA exam. Under the new state requirements, CPA candidates must have 24 semester credits of business-oriented courses in addition to 24 semester credits of accounting above the Principles of Accounting level. These business-oriented courses must include coverage in each of the areas of business shown below. Candidates should review courses they have taken to be sure they have coverage in each of the areas of business.

The following courses are not required in the Financial Accounting certificate (except ACCT 2120 Auditing Theory and Practice and ACCT 2210 Managerial Accounting: Finance) but can be used by CPA candidates to help satisfy the business-oriented course requirement:
