

DISCOVERING
THE **WORLD**
THROUGH **GIS**

GISday

**Wednesday,
Nov. 15, 2017**

9:30 a.m. - 1:30 p.m.

**Lakeland
Community
College**

Geographic Information Systems (GIS) includes the mapping technologies that are used to capture, analyze and display information in order to better understand our world.

DID YOU KNOW? GIS technology is used for: business, city planning, education, real estate surveying – and much more!
