

DISCOVERING  
THE **WORLD**  
THROUGH **GIS**

# GISday

**Wednesday,  
Nov. 15, 2017**

9:30 a.m. - 1:30 p.m.

**Lakeland  
Community  
College**

**Geographic Information Systems (GIS)** includes the mapping technologies that are used to capture, analyze and display information in order to better understand our world.

**DID YOU KNOW?** GIS technology is used for: business, city planning, education, real estate surveying – and much more!
