

Claim college credit for your tech prep completion

Congratulations on completing your Tech Prep program! [On this page are articulation agreements](#) used by us to make sure that you get credit for your work. The agreements are arranged by the district (A-Tech, Auburn Career Center, EXCEL TECC, Lake Shore Compact) and then by program (e.g., Allied Health, Information Technologies).

Download the document, then complete it and return it to me. I also need you to make sure that your final, official transcript is sent to me by your high school, and that you apply to Lakeland if you have not already done so.

It is important that you complete the process of finalizing your credits. Even if you do not plan to attend Lakeland, claiming your credits may benefit you, since other colleges and universities may accept the credit. Also, you need to claim your credits within two years of completed high school. Sending in the paperwork now avoids the credit expiring. If you have questions about filling out the form, please email me at criley@lakelandcc.edu If you have questions about applying to Lakeland see the main page of this site and click on [Apply](#).

Once again congratulations and best of luck in your future endeavors!

Chris Riley
